

Senior Software Developer (ASP.Net, VB, Ajax, .net framework, SQL Server)

Growing San Francisco-based technology company providing software tools and custom reporting to the financial services industry has an immediate need for a permanent full-time .Net (ASP and VB) Developer. Senior-level position with minimum 5 years of experience. Compensation commensurate with experience.

The candidate will be responsible for developing and implementing software code to meet enhancement and maintenance requirements for an existing Web-based product, and custom reporting products. The candidate must have experience working with Microsoft .NET technologies and relational databases, specifically the SQL Server 2005/2008 environment; as well as knowledge and experience using software development best-practice methodologies. Financial sector business knowledge and exposure to financial applications desirable.

Skills / Attributes Required

Stable work history, green card or US citizenship, excellent communication skills and:

- Strong client facing skills.
- Five(+) years experience as a developer.
- Five(+) years experience with ASP.NET/VB.NET, VB6.
- Proficient with Microsoft SQL Server 2005/2008; Solid understanding of Extract Transform Load (ETL) development using SQL Server Integration Services (SSIS).
- Deep knowledge of the .NET 3.5/4.0 Framework, including Visual Studio 2008, VB.NET, ASP.NET, ADO.NET, Ajax, Java scripts.
- Strong knowledge of software implementation best practices.
- Strong experience designing and working with n-tier architectures (UI, Business Logic Layer, Data Access Layer) along with some experience with service-oriented architectures (SOA).
- Ability to work with minimal supervision.
- Ability to accurately scope effort & deliverables.
- Ability to meet communicated / committed / agreed upon dates with minimal intervention by Project Manager.
- Ability to adapt quickly to an existing, complex environment.
- Candidate should be a self-motivated, independent, detail oriented, responsible team-player and exhibit exceptional relationship management skills.
- Passionate about building high-quality systems with software implementation best practices.
